About Us

Bankers Nursing Institute was established in 2009, run under the Yash Public Charitable Trust with the aim of providing quality education to students in the paramedical field while combining technology, cost effectiveness & human touch. The institute also includes Bankers Technical & Allied Health Institute.

Committed to our mission of developing an international standard, nursing education institute, we have designed our syllabus & teaching methods that will help our students excel in their professional lives. Our endeavour is to provide training & up skill students with comprehensive training to be the best in the paramedical industry along with empowering women through education & career opportunities.

The nurses are the pride of BNI, with the motto of service with a smile translated into action while serving the sick, with a dedicated human touch. We strive to achieve our mission as a Centre for Excellence for Nursing Education in Gujarat.

Our students are very sought after – domestically as well as internationally, for their excellent clinical knowledge & practical knowledge as well as for the professionalism that they exhibit. We take pride in the fact that in just under a decade, Bankers Nursing Institute graduates have created a strong mark for themselves & have proved themselves in a professional setting as well.

Vision

The vision of Bankers Nursing Institute is to prepare excellent nurses & health care givers to transform the lives of person, society & community through advanced & innovative education in health care. We graduate extraordinary healthcare professionals who transform the health of people worldwide.

Mission

- ✦ Promote innovative & high - quality education to develop professionalism for global outlook.
- ✦ To foster innovative research that will benefit the humanity & improve the nursing standards.
- ✦ To educate & inspire students to become compassionate healers who demonstrate integrity, innovation, caring & excellence.
- ✦ Provide safe, friendly, accessible environment where all students & faculty members may optimize their academic, career, professional & cultural development.
- ✦ To enhances critical thinking of the individual student to become a good leader in professional practice of nursing.
